

picisel[®]
Smartviewer[™]

Take your Docs anywhere...

Picisel Smart Viewer[™] is a revolutionary viewing solution. Based on technology deployed on over 500m devices, it offers a unique desktop viewing experience on your mobile device.

BUILT FOR YOU. DEPLOY TO MANY. FAST.

Differentiate with a Premium Viewing Experience.

Picisel Smart Viewer[™], the benchmark viewing technology, is delivered to you in a single application ready to bundle with your existing application or preload onto your portfolio of devices. Picisel's lightening fast dynamic font and rendering engines are runtime resource friendly offering premium end rich viewing experiences to all, including low end devices.

Rich Document Viewing

Picisel Smart Viewer[™] can handle a vast array of file types, the widest range on the market, from Microsoft[®] Word Documents and PowerPoint Slideshows and PDF to PNG, JPG and everything in-between. Picisel's Smart Viewer technology quickly delivers the most faithful replication of desktop content on mobile. The powerful font rendering engine ensures sharp and crystal clear font representation no matter how small the screen. Pan and zoom documents, zoom in to see the smallest letter or Nzoom[™] out to see a global document view in a simple smooth gesture.

Signature User Interface

Picisel Smart Viewer[™] delivers an intuitive user friendly environment that drives a consistent UX across multiple platforms. Picisel can rapidly rebrand Smart Viewer[™] should you require delivery of the ultimate branded experience to your users. Picisel Smart Viewer utilises platform independent code, enabling simple integration, customisation, and, importantly, a consistent User eXperience to your users no matter how it is skinned.

Tested to the Limit

Rigorous product testing is conducted by Picisel's own Automat Test System. Using over 1 million document and image combinations in testing ensures Picisel Smart Viewer[™] offers a stable viewing environment for your users.

Connect to the Cloud

Cloud storage offers unprecedented file access to users on the go. Picisel Smart Viewer[™] and its signature UI provide a consistent, seamless user experience to view files in your Dropbox[®] account and Google Docs[®].

SEEING IS BELIEVING.
